Reference: FCC Docket Nos 96-45, 98-171, 90-571, 92-237, 99-200, 95-116, 98-170
and NSD File No. L-00-72.

Dear FCC:

This increase in charges would mean that I no longer can have a wireless phone to use for emergency calls either receiving or sending. I only got this phone because I did not have to spend a certain amount of money per month on it. If this charge goes through I will be put in the very undesirable position of having to decide wither or not to keep the phone or take chances on the lives of not only myself but of my children and my parents as well.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Linda Hays
